DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	6

# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

The City of Troy Police Department had its PREA Audit conducted on September 16, 2019. The facility did well in preparing files for audit and assisting the Auditing Team in setting up interviews with staff, administration, and an inmate, (during the time of audit no detainees were present) that were detained at the time of Audit. The files were neat but work still had to be done in efforts to easily decipher the Jail component from detention. The facility worked very hard during and after the Audit to ensure that standards were satisfactorily met.

Troy Police department are working on ways, which were suggested to better educate both their residents/inmates and staff to ensure the intent of PREA is clearly understood. The inmates that was interviewed at the time of audit was knowledgeable of the standards and understood the purpose of PREA, knew how to properly report and felt very confident in the safety of the facility.

Attempts were made to contact Medical Staff by phone after the audit although the facility still coordinates with local hospital authorities and crisis centers. The Investigator role hasn't changed since the previous audit and is still housed within the agency.

Upon review of the files and through interviews, it was reiterated that PREA Audits are like none other, the Auditor has to be satisfied that policy or procedure exist to satisfy the standard, that the practice in place is consistent with the standard and policy, and that the policy and practice has become institutionalized.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

The Troy Municipal Court was originally created in 1922 as the Troy Recorder's Court. The Troy Recorder's Court became the Troy Municipal Court in 1966.

The City of Troy Police Department total bed capacity is 18 (16 Adults, Jail and 2 Juveniles, Short-Term Detention). The age range for Adults is 18 & up and for Juveniles 12-17.

The City of Troy Police Department have many of its entities within the same Building. The mission of the Department as a whole is centered around four points.

1. Protect life and property within the police jurisdiction of the City of Troy.
2. Enforce laws and ordinances in a fair and impartial manner and recognize the constitutional rights of all persons.
3. Contribute to the safety and security of the community by apprehending those who commit criminal acts and by developing partnerships to prevent, reduce or eliminate community problems.
4. Provide continuous services on a professional level.

## Summary of Audit Findings

*The summary should include the number and list of standards exceeded, number of standards met, and number and list of standards not met.*
